Summary

Computer Science and Engineering (Data Science) student with hands-on experience building and deploying full-stack and frontend applications. Skilled in Python, JavaScript, SQL, Next.js, React.js, FastAPI, HTML, CSS, and Supabase. Built practical software products including a gig platform, restaurant e-commerce system, community-focused delivery platform, and medical shop management system. Strong interest in software engineering, problem solving, and building practical real-world solutions.

Skills

Programming: Python, JavaScript, SQL, C, Java (Basic)
Data Structures and Algorithms: Arrays, Strings, Hashing, Linked Lists, Stacks, Queues, Trees, Graphs
Frontend Development: React.js, Next.js, HTML, CSS, Responsive Web Design
Backend Development: FastAPI
Database: Supabase, MySQL
Developer Tools: Git, GitHub, Postman, Visual Studio Code

Experience

Technical Team Manager & Developer Intern — Aug 2026 – 3-Month Internship
Aplus Tech Services and IT Solutions – Hyderabad — *Web Development, Technical Team*

- Worked on website and software development tasks as part of the company's technical team.
- Contributed to frontend and full-stack development, implementation, debugging, and deployment of web applications.
- Supported technical project execution and coordinated development tasks within the team.

Projects

VeriGig – Full-Stack Gig Platform — Next.js, FastAPI, Supabase
- Developing a platform connecting clients and freelancers for project-based work, including authentication, project workflows, applications, communication, and database-driven functionality.

December Delights – Restaurant & E-Commerce Platform — Next.js, FastAPI
- Built an advanced coffee shop and restaurant platform with e-commerce support and modern customer-facing functionality.

Mutton – Community-Based Delivery Platform — Next.js, FastAPI
- Developed a quick-commerce-style delivery application designed specifically for selected communities.

Medical Shop Management System — HTML, CSS, JavaScript
- Built a practical system for a family medical shop to manage inventory/restocking, medicine expiry tracking, and billing.

Aplus Tech Services – Company Website — HTML, CSS, JavaScript
- Developed the company website presenting business information, services, and company details.

Personal Portfolio — Next.js, FastAPI
- Built a personal developer portfolio to showcase projects, technical skills, and professional work.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering (Data Science) — Expected
Graduation: 2028 — 3rd Year
Sri Indu College of Engineering and Technology

Intermediate: Narayana Junior College, Hayathnagar — 95.2% (2024)

SSC: Maharshi Vidyalaya, Mahabubabad — 92% (2022)
